

ŠTEVILA DO 10000

4. RAZRED

Mojca ŠABEC, prof.

Najprej bomo ponovili snov iz prejšnjih razredov.

Poimenovali bomo desetiške enote in si v naslednjem diapozitivu pogledali, katere enote poznamo in število, ki ga predstavljajo.

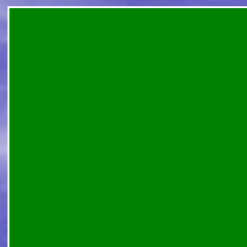

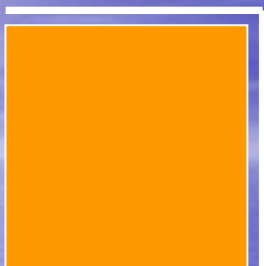

V naslednjem diapozitivu so desetiške enote predstavljene s kockami in kako jih narišemo.

V zvezek napiši naslov in vanj prerišeš. Pomagaj si s šablono. Ustrezno označi.

Desetiške enote

NARIŠEMO:

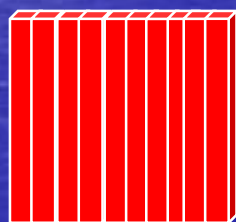

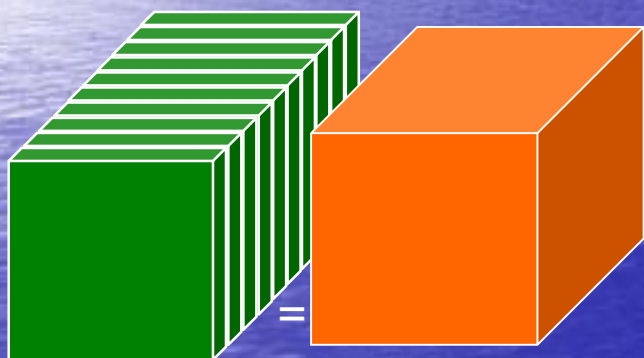

IZ ENOTSKIH KOCK:

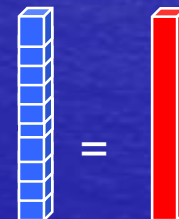

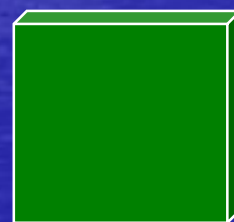

kvadrat

črta

pika

=

=

TISOČICA

$10\ S = 1\ T$

1000

STOTICA

$10\ D = 1\ S$

100

DESETICA

$10\ E = 1\ D$

10

ENICA

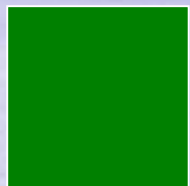

$1\ E$

1

Dobro si oglej naslednja dva diapozitiva.

Diapozitiv si samo poglej, saj to že znaš.

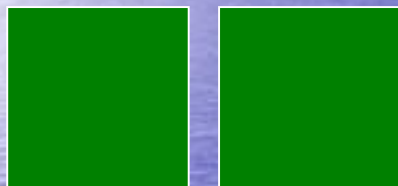

RAZŠIRITEV PO STOTICAH

1 S

100

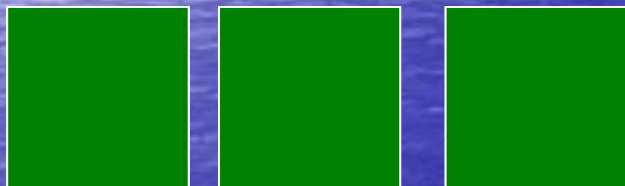

STO

2 S

200

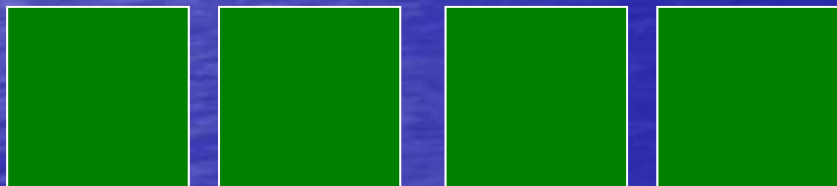

DVESTO

3 S

300

TRISTO

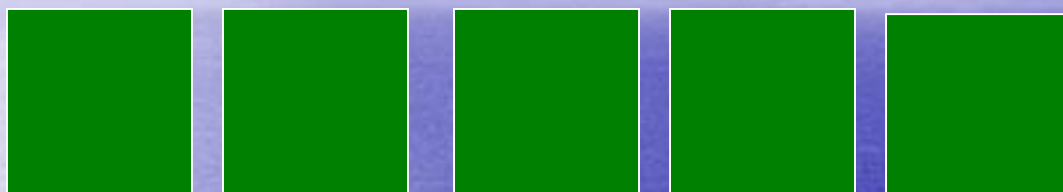

4 S

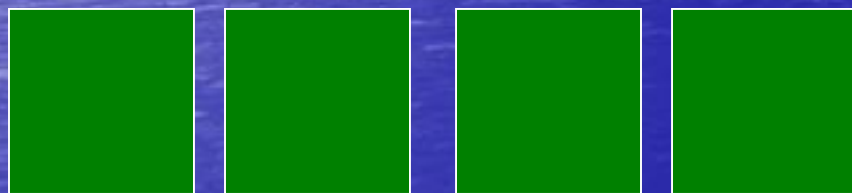

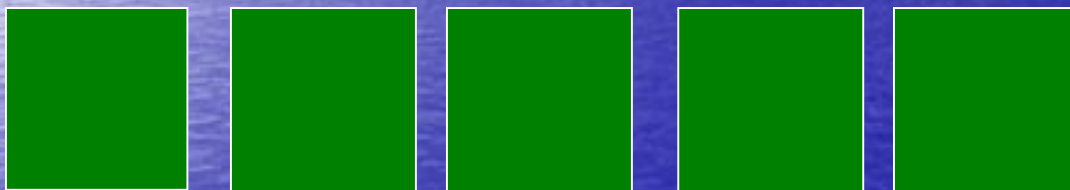

400

ŠTIRISTO

PETSTO ALI PECTO? DEVETSTO ALI DEVECTO?

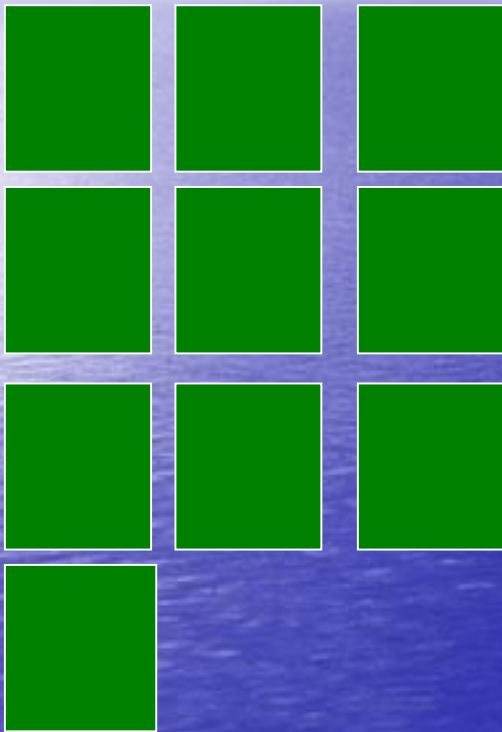

5 S 500 **PETSTO**

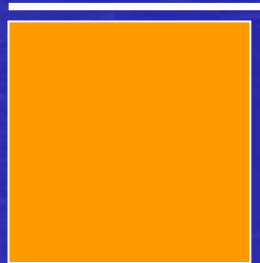

9 S 900 **DEVETSTO**

Pa števila do 10000?

10S = 1T tisoč 1000

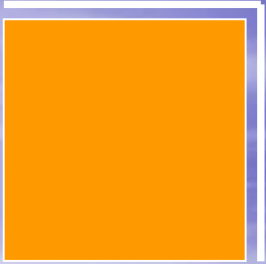

tisoč 1 T 1000		
dva tisoč 2 T 2000		
tri tisoč 3 T 3000		
štiri tisoč 4 T 4000		
pet tisoč 5 T 5000		
šest tisoč 6 T 6000		
sedem tisoč 7 T 7000		
osem tisoč 8 T 8000		
devet tisoč 9 T 9000		
deset tisoč 10 T 10000		

Sedaj napiši nov naslov:

**RAZŠIRITEV PO TISOČICAH in v
zvezek preriši naslednji diapozitiv.**

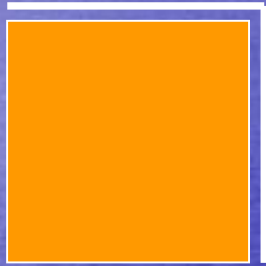

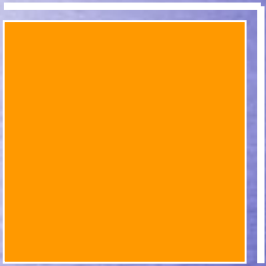

**Pazi na zapis z enoto, številko in iz
besedo.**

1 T

1000

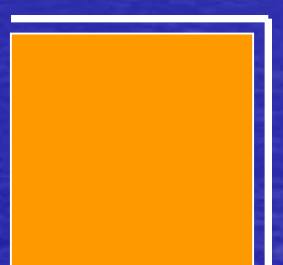

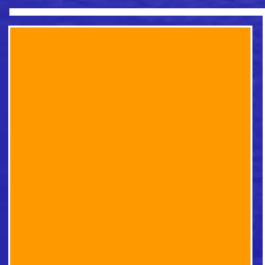

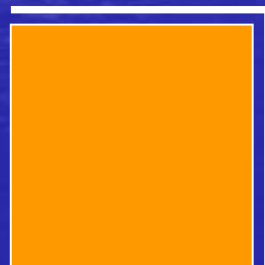

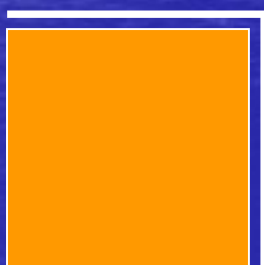

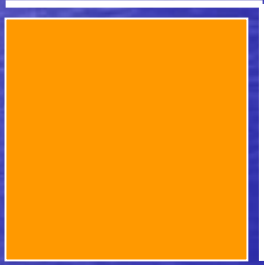

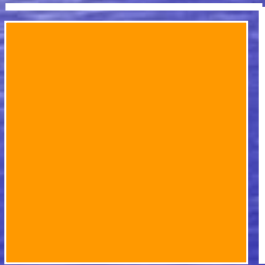

tisoč

3T

3000

tri tisoč

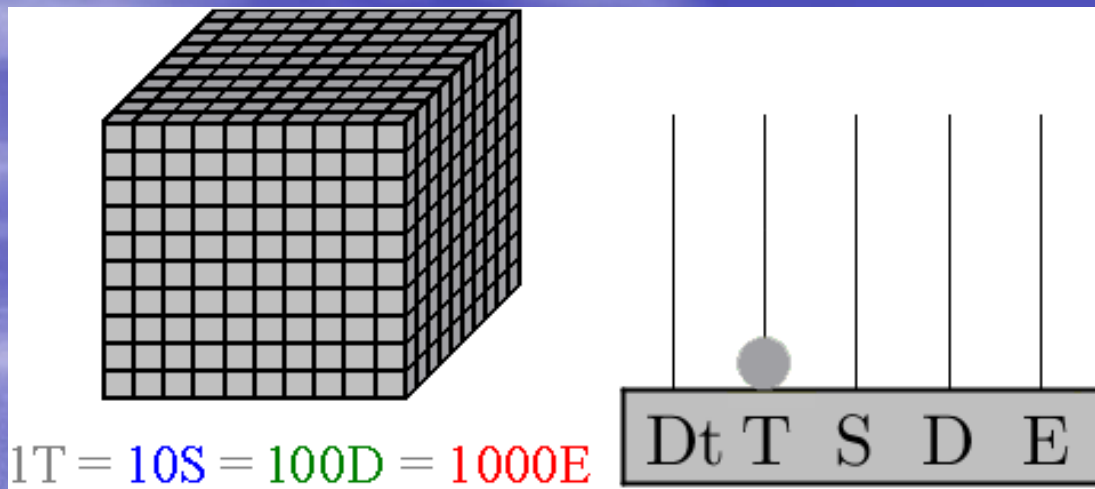

6T

6000

šest tisoč

**Namesto tega, da tako na dolgo
rišemo, si pomagamo raje s
POZICIJSKIM RAČUNALOM, ki je
prikazan na spodnji sličici.**

**Preriši eno računalno in na njem označi
novo enoto Dt – deset ticočico.**

Prepiši v zvezek.

10 T = 1 DT = 10000

1000 = 1T

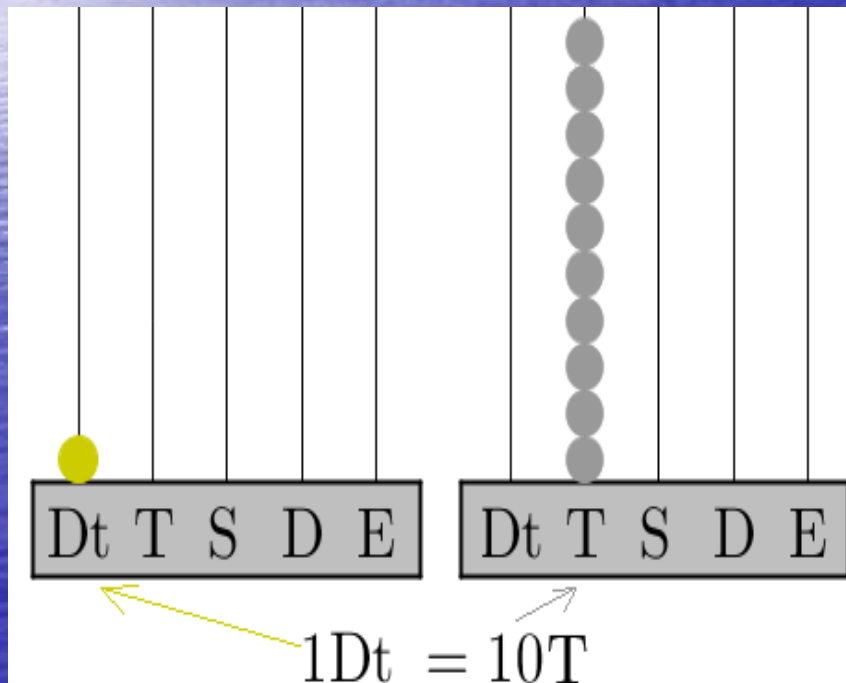

tisoč

2000 = 2T

dva tisoč

3000 = 3T

tri tisoč

NADALJUJ DO 10000!
