When he was 15, John Goddard made a list of all the things he wanted to do in his life. He wrote 127 things on his list. Now, 60 years later, he's done 109 of them. Here are some of the things he's done:

He's explored eight rivers, including the River Nile and the Amazon.

He's climbed 16 famous mountains – although he hasn't climbed Mount Everest yet.

He can fly a plane and he's flown in a balloon.

He's ridden an elephant and a camel.

He's learnt to ski and he can water-ski too.

He's written a book and he's learnt to play the violin.

He's taken photos of wild animals, like lions and cheetahs.

He hasn't been to the North Pole yet, but he's already visited nearly all the countries in the world.

Colin: I really like that jacket. How long have you had it?

Matilda: Oh, for about a month, I think.

Colin: Where did you buy it?

Matilda: I bought it at 'New World', you know, the clothes shop next to the bank.

Colin: Do you usually buy your clothes there?

Matilda: No, it's a bit expensive.

Colin: Have you ever been to the market in Queen Street?

Matilda: Yes, I often go there. I buy things like jeans and jewellery.

Colin: I got this T-shirt at the market. It was only £3. What do you think of it?

Matilda: I think it's nice.
